Dear Mr Peter Fernandis

THE CONTROL OF VECTORS AND PESTICIDES ACT - THE REGISTRATION OF PUBLIC HEALTH PESTICIDES AGAINST VECTORS – AQUATAIN AMF LIQUID MOSQUITO FILM

I refer to your application for the registration of the abovementioned product received on 18 November 2008.

2 Under the Control of Vectors and Pesticides Act 1998, all public health pesticide/ repellent products targeted against any of the five vectors (i.e. mosquitoes, cockroaches, rat fleas, flies and rodents) are required to be registered with our department, prior to sale in Singapore.

3 We would like to inform you that – **AQUATAIN AMF LIQUID MOSQUITO FILM**, requires no registration from our department. This is because, as declared in your application, the product does not contain any chemical pesticide active ingredient.

4 However, you are strongly advised to label the product properly so as to adequately educate the users and reduce the risk of poisoning. The label should also enable users and medical personnel to administer prompt treatment in cases of accidental poisoning. The following information is particularly important and should not be omitted from the label of any public health pesticide or repellent:-

- | | |
|--|--|
| a) Product Name | f) Precautions |
| b) Type of formulation | g) Statement of Practical Treatment |
| c) Composition and % of all active ingredients | h) Guide To Doctor |
| d) Targeted Pests | i) Particular of local importers/ distributors |
| e) Direction(s) for use | |

Thank you.

Yours faithfully
